

RE-VISION CPD

WITH

ROBERT ROMANYSHYN

VICTOR FRANKENSTEIN,

THE MONSTER AND THE SHADOWS OF TECHNOLOGY: THE FRANKENSTEIN PROPHECIES

Saturday 6 July 2019 10-5 at Re-Vision, London NW6

For psychotherapists, counsellors, arts therapists and those in training. £95

In our turbulent times, the pace of technological advancements is continuously increasing and its reach into our personal and collective lives is becoming increasingly invasive. Whether it is the fear of a nuclear event, or the terrible warning signs of climate crises, or the threats to privacy and identity, or the loss of a sense of place and community as we live more and more in digital space, or the shadowy impacts of technology on our political and economic institutions, or the seemingly insane pace of time in a 24/7 wired world, we are webbed into a way of being where these global concerns are the very fabric of our day to day lives.

Mary Shelley's *Frankenstein* is a parable for our time, and Robert's upcoming book, *Victor Frankenstein, the Monster and the Shadows of Technology: The Frankenstein Prophecies* poses eight questions addressed to us by the Monster, who, never named and abandoned by his creator, is exiled to the margins of mind where he haunts the collective imagination.

Participants will:

- Explore via some examples how psychological suffering—*anxiety, depression, eating disorders etc*—are systemic and have their roots in cultural issues—*injustice, racism, income inequality, ecological crises, etc*— and therefore how the therapy room is an encultured space
- Use case examples to explore how symptoms are a vocation, a calling from the margins to remember what has been lost, neglected, silenced and how framing symptoms in this way is the foundation for an ethics that is inclusive of the other within and outside oneself
- Explore ways of working with dreams as pathways into imagining other possibilities both personally and collectively
- Examine the field between therapist and patient/client as a complex gestural field where the complexities of love and its shadows are enacted.

Copies of *Victor Frankenstein, the Monster and the Shadows of Technology: The Frankenstein Prophecies* will be available for sale on the day prior to its official publication.

Robert D. Romanyshyn is an Emeritus Professor at Pacifica Graduate Institute, an Affiliate Member of The Inter-Regional Society of Jungian Analysts, and a Fellow of the Dallas Institute of Humanities and Culture. In addition to on-line webinars and interviews, he has given key note addresses, lectures and workshops at international conferences, universities and professional societies in the U.S., Europe, Australia, South Africa, Canada and New Zealand. He has published eight books including a book of poems, numerous essays, written a one act play about Frankenstein and created a multi-media DVD entitled *Antarctica: Inner journeys in the Outer* based on his travels.
